At a meeting of the Republican State Central Committee, held at the city of Parkersburg, February 23, 1892, it was ordered that a convention of the Republican party of West Virginia be held in the city of Huntington, in the county of Cabell, on Wednesday, August 3, A. D. 1892, at 10:30 o'clock a. m., to nominate candidates for the following named offices, to be voted for at the election to be held on Tuesday, November 8, 1892:

Governor, State Superintendent of Schools, Auditor, Treasurer, Attorney-General, two Judges of the Supreme Court of Appeals (one for the short term and one for the long term), and also two Presidential Electors at Large, and to transact such other business as the convention may see proper to do.

It is recommended that each county be entitled to one vote in said convention for each 100 votes, or fraction thereof, in excess of fifty votes, cast for President Harrison in 1888.

The Executive Committee of each county will please take early steps to secure to its county proper representation in said convention.

The co-operation of all voters is invited who believe in the policy of reciprocity, of protection to American working men, of American farmers, and American manufacturers; who favor a sound currency, the upbuilding and development of the state, the correction of abuses in the educational, humane and other institutions of the commonwealth, and economy and reform in the conduct of several departments of the government of the State.

## A British View of the American Tariff.

Sheffield Daily Telegraph.

"The promoters of the McKinley tariff meant it to push forward the policy of America for the Americans. One method of realizing it was to keep all work within their own dominions. The country was to be made self-sufficient; what could be produced at home was not to be bought abroad. That was the key-note of the McKinley scheme, and it is working out the idea of its designers with the precision and effectiveness of a machine."

IN 1890 it was a conflict of predictions; now our adversaries must face trade statistics and prices current.—President Harrison, June 21, 1892.

REPUBLICAN victory in the coming election would regard for a long time the progress of the sound commercial doctrine that underlies the commercial greatness of Great Britain and alone maintain British ascendancy.—London Evening News.

## A White Republican Party in the South.

The INTELLIGENCER is in receipt of a circular letter addressed "to the white Republicans of the south." It proposes an organization in each of the fifteen southern states, each organization to send delegates to a southern central convention to be held in the early autumn at a central point to be chosen later. There is to be chosen a central southern executive committee to be composed of one representative from each of the fifteen states.

The circular comes from Texas. What it proposes is an enlargement of the Texas Lily White movement until it shall take in the whole south. The delegates sent to Minneapolis to the committee room to keep in touch with him, wanted to give the Lily Whites at least half the representation. West Virginia made the point that no organization that drew the dead line of color could be admitted to a Republican national convention, because it could not be Republican. The committee took this Republican view. The minority was not bold enough to offer a minority report on this case.

The INTELLIGENCER's impression is that West Virginia will not take part

in this southern central convention. So far as the INTELLIGENCER is acquainted with West Virginia Republicans they regard the regular Republican organization, state and national, as the organization for them to co-operate with.

In West Virginia there is no division of the Republican party into white Republicans and colored Republicans. There is just one Republican party, which all citizens of whatever color, shade or condition are invited to join and be happy.

Ab. Thero, Artful Dodger!  
Esteemed Register!  
Stand up and be searched!

You are supposed to have somewhere about your talented person the latest platform of your party. Will you be good enough to compare the tariff plank of that platform with this from your own editorial columns?

American people now have a right to demand either that the wages of Carnegie's employees be increased to something like the tax rate the people pay, or that the theory of "protection to American labor" be abandoned as a fraud upon labor and upon the great majority of the American people.

You forget. The duty, as you are pleased to call it the "tax rate," on steel billets was reduced by the McKinley act. According to your theory it was right to reduce the wages paid to men who produce the billets. This must be your notion or you would not couple wages and the rate of duty as you do. But never mind this. It is such a little one for you.

You say that if Carnegie will not pay higher wages "the theory of protection to American labor must be abandoned as a fraud." Your party says it must be abandoned anyhow, without any regard to any effect it or its abandonment may have on the wages paid by Carnegie or anybody else.

You know this to be true—will you have the candor to admit it for the benefit of the ignorant among your readers, to whom you make your appeal?

The tariff plank of your party, which had in the convention the vote of your presiding genius, denounces protection as a fraud and declares it to be unconstitutional.

You know this to be true—will you be honest enough to admit that according to this Democratic theory Congress could not pass a protective tariff act, though all the wage-earners of the United States were to clamor for it as the one thing that would save them and their families from starvation?

And finally, will you make a clean breast of the whole disgraceful business and confess that you are not quite so ignorant as you seem—that you are merely doing your level best to sustain the role of a vote-seeking demagogue?

## Feeling the Light.

The Democratic newspapers which approved Governor Pattison's do-nothing course about-faced when the governor ordered the troops to Homestead. The Philadelphia Times is one of these newspapers. It now says:

There will be no fighting. The soldiers are not ordered to Homestead to carry on war, but to support the sheriff in the exercise of his lawful authority. The mere presence of such a force will be a guarantee of peace, and under its protection order will be preserved and the civil authority re-established at Homestead.

This is what the rest of us have been saying. And this is why it was incomprehensible on any public ground that the governor of Pennsylvania could hesitate for a moment as to his duty in the premises. He knew that the lawful authority of the sheriff had been wiped out so far as any practical exercise of it was concerned. He knew that the situation was intolerable under a government of law. He knew that the men of Homestead had proclaimed martial law. He knew that the law had at hand no force to protect property and prevent more bloodshed. To sum it up, he knew that the presence of the military force of the state would be "a guarantee of peace;" and he knew that there was no other guarantee. The governor was sharply criticised because he exposed all there was in Homestead to all that might happen, when his was the one voice in all that great commonwealth that could give "a guarantee of peace."

Governor Pattison was playing on the wage-earners of the country in the hope of making himself solid with them. He has a whole hive of bees in his bonnet.

## Will They Speak?

The Homestead men are much displeased by General Snowden's curt remarks to their representatives who called on him. They particularly dislike his flat assertion that he does not recognize their Amalgamated Association. We shall now await patiently the comments of the Democratic newspapers which have been sitting up of nights to make a little political capital out of the Homestead affair if peradventure they might. General Snowden is a Democrat. So is Governor Pattison who sent him there.

MR. CLEVELAND, by politely protesting against the use of his wife's name by the women's Frances Cleveland Infirmary Clubs, has done a good and sensible thing in harmony with the proprieties. If he could induce the dropping of the Baby Ruth business he would achieve another triumph in the same line.

SHALL we hear that the trouble and the slaughter at the Idaho mines are due to the protective tariff—no protective tariff no trouble over wages, no slaughter? Come, gentlemen! Democratic demagogues, be consistent and let us hear you speak right out in meeting.

MR. WILLIAM WALDOFF ASTOR is understood to be well enough to read with a certain degree of satisfaction the lengthy obituary notices published by some of the newspapers. Mr. Astor is to be congratulated on his signal victory over the grave obituary man.

It must drive the iron into Governor Pattison's soul to know that the Homestead men approve the presence of the military as securing the peace of their

## A Simple Problem.

The value of a baking powder is in the leavening gas it contains. If one brand is stronger than another, it is worth more per pound, because it goes further in baking.

Royal Baking Powder has been determined by the official chemical tests to be 27 per cent. greater in leavening strength than any other brand. Its actual value to the consumer is therefore 27 per cent. greater than the others. This is equal to 13½ cents per pound.

If, therefore, other powders are forced upon you, see that the charge for them is 13½ cents per pound less than the price of the Royal.

community. The governor would have sent the troops earlier if he had not thought that Homestead would resent their coming. He may now be supposed to be suffering all the pains and penalties of being a double-dyed demagogue.

WOMAN is borne on Democratic wings that in Braxton county Captain Dovenor was eaten up by a Democrat who fell foul of him while the captain was making a few political remarks. This is sad, for to-morrow the Republicans of the First district are going to turn Captain Dovenor loose to knock John O. Pendleton into a cocked hat.

INTELLIGENCER reporters have taken the briefly expressed opinions of all sorts of citizens of Wheeling on the best way to settle the Homestead trouble and similar affairs. There are all sorts of interesting views, but arbitration has the call. Arbitration is the peaceful, rational, practical method.

FOR prohibition that prohibits, look at Homestead. The saloons were ordered to close and they obeyed orders. They understood the public sentiment back of the order. When public sentiment runs strong the people have their way. When it is the other way, the tide runs that way.

THE death of Cyrus W. Field, long expected, has come at last. Family trouble and heavy business losses killed the man whose strength of character, great foresight and untiring energy gave the world the first Atlantic cable and established ocean telegraphy as a practical thing.

THE governor of Idaho seems to think more quickly than the governor of Pennsylvania. He knows it is his duty to preserve the peace within his jurisdiction. Perhaps he has no presidential bee in his bonnet.

NOW Mr. Powderly is ascending Governor Pattison's frame because his excellency of Pennsylvania sent forward the military. Is there, then, no rest for the ambitious politician?

HOMESTEAD sees the transition from the martial law of the advisory committee to the martial law of the state. The difference is marked.

THE summer sun has come again and nobody is complaining that the weather is unseasonable.

THE Oates committee should be able to provide forage for the artillery horses at Homestead.

Engineer Munson, of the steamer *Ermine*, plying between Moon's and White Sulphur Springs dock, at Saratoga Lake, N. THE only reason for Mr. Cleveland's nomination, and the thing that forced his nomination in spite of all the efforts of politicians, was the fact that, in the minds of the Democratic masses, he represents the idea of free trade. The platform is an unmistakable declaration against all parleying with protection. It puts the Democratic party in the field as committed to the policy of sneeping away every shred of a protective duty.—Henry George, the Free Trader.

## NOT ONE SORE NOW.

Baby Afflicted with Bad Sores and Eruptions—No Relief—Permanent Cured by the Cuticura.

During the summer of 1889 my eighteen months old infant was so afflicted with eruptions that ordinary domestic remedies failed to give any relief. On his lips would often appear the scum of a little wire-like worm, and on other parts of his body bad sores came and remained. I procured the CUTICURA REMEDIES. For some time I used the soap and salve without a blood medicine, but they did not do so well as when all were used together. It has now been nearly a year since the eruption was healed, and I very much feared it would return with the warm weather of this year, but the summer is passed and not one sore has appeared on him.

## Sore From Waist Down.

I had three of the best physicians in Paducah, and they did me no good. I used your CUTICURA REMEDIES, and they have cured me sound and well. I was sore from my waist down with eczema. They have cured me with no sign of return. I own my life to CUTICURA, for without a doubt, I would have been in my grave had it not been for your remedies. Allow me to return my sincerest thanks.

W. H. QUALIS, Paducah, Ky.

## Cuticura Remedies.

If the thousands of little babies who have been cured of agonizing itching, burning, bleeding, scaly and blotchy skin and scalp diseases could write, what a host of letters would be received by the proprietors of the CUTICURA REMEDIES. Few can appreciate the agony these little ones suffer, and when these great remedies relieve in a single application the most distressing eczemas and itching and burning skin diseases, and point to a speedy and permanent cure, it is positively inhuman not to use them without a moment's delay.

Sold everywhere. Price, CUTICURA, 50c; SOAP, 25c; RESOLVENT, \$1. Prepared by the PORTER, DAVIS AND CHEMICAL CORPORATION, Boston, Mass.
